

# ADAM MAULANA

Frontend Developer · Graphic Designer

Building brand-driven, responsive web experiences — from Figma to production code.

## // PROFESSIONAL SUMMARY

Frontend-leaning developer and graphic designer with 5+ years designing and building brand and web assets. Hands-on experience building company websites end-to-end with WordPress/Elementor, plus personal projects in Next.js, React and Tailwind CSS — comfortable turning a design file into a working, responsive interface.

## // SELECTED PROJECTS

### Jembatan Bisnis — Company Profile Site

2024

Freelance — Design & Development

- Designed and built a full company-profile website from scratch for a Jakarta business-brokerage firm, using WordPress & Elementor.

[jembatanbisnis.com](http://jembatanbisnis.com)

### Afra Konektra — Company Profile Site

2025

Freelance — Development (UI by a collaborating designer)

- Built and developed a company-profile site for an industrial automation systems integrator, translating a provided UI into a working WordPress/Elementor build.

## // WORK EXPERIENCE

### Graphic Designer — PT Johannes Carpet Indonesia

2021–2025

Custom carpet design & production for five-star hotels and luxury residences

- Designed custom carpet patterns and motifs to client specifications.
- Produced client-facing visualizations and mockups; collaborated with production teams to finalize designs.

### Final Artwork & Graphic Designer — PT Karya Aura Samasta

2021

Independent design studio, Jakarta

- Prepared final artwork for production and adapted branding designs across packaging and media formats.

### Graphic Designer — Custombox Indonesia

2019–2021

Custom packaging & branded print materials

- Designed custom packaging and branding/logo assets across a range of client products.
